🪪 Profile

Hi! I'm Christian. I have over 7 years of website SAAS industry experience leading and developing customer facing teams. I made the switch to software development to take a more active role in developing industry-leading software that solves real-world problems.

💼 Professional Experience

4Geeks Academy Full Stack Student Mentor
4Geeks Academy 🔗
Sep 2022 – present | Remote
Provide support for new students embarking on their Full Stack Engineering journey. This includes 1:1 sessions on topics that students are finding challenging and helping them through problem solving those issues.

Customer Success Team Lead
Uscreen 🔗
Feb 2021 – Jun 2022 | Remote
Set the mission, scope and strategy for the Customer Success department, including setting OKRs and launching new revenue initiatives to improve on key revenue-generating metrics.

Senior Team Lead, Enterprise Account Management
Squarespace 🔗
Mar 2020 – Jan 2021 | Dublin, Ireland
Developed and launched Enterprise and Premium service solutions for an under represented customer segment with large purchasing value through a personalised business support programme.

📁 Projects

Chore Manager 🔗
4Geeks Academy Full Stack Engineer Final Project
Full Stack web application built from scratch helping individuals get their most common chores completed, tracked with the added benefit of being able to do it as part of a team.

Personal Portfolio 🔗
A custom-made portfolio showcasing skills, expertise and personal interests
present

Star Wars Reading Blog 🔗
Project based on the Star Wars SWAPI API
